

Dear Municipal Official:

With more than 16 years of experience in meeting the natural gas supply and risk management needs of municipal utilities, the Interstate Municipal Gas Agency wants to be your community's partner for success!

Serving the states of Illinois, Indiana, Iowa, Kentucky and Missouri, the IMGA specializes in custom-designed solutions to meet the needs of individual communities. Our professional staff has the experience to know that cookie-cutter, "one-size-fits-all" gas purchase and risk management plans just won't meet the needs of most of the cities and villages we serve. We will work with you to find the **best and most appropriate** plan to fit the specific circumstances of your municipality.

To schedule an appointment for an IMGA staff member to visit your community, call 217-438-IMGA (4642).

Interstate Municipal Gas Agency

We're Your Partner for Success!

Let the IMGA be your...

Partner for Success!

Natural Gas Supply

The Interstate Municipal Gas Agency is one of the most experienced joint action agencies serving communities throughout the midwest. Each year, the Agency delivers billions of cubic feet of natural gas to communities throughout the region.

The IMGA works with a variety of partners to assure that your community will receive the lowest, most appropriate price in the market. Able to work with all major pipelines, the IMGA will select your gas purchase point to help keep your costs down.

With one of the best customer service records, and lowest management fees of any joint action agency, we'll help keep your gas affordable!

Risk Management

Whether you want to be involved in all purchase decisions, or whether you want us to handle all the details, the IMGA has a risk management program for your community.

Our **MarketEDGE** program can take the hassle out of risk management, using preplanned purchases over a three-year period to greatly minimize your price risk exposure.

IMGA also offers the full range of risk management options, including fixed price agreements, caps, collars, and 50% participating swaps. We don't believe in "one-size-fits-all" risk management, so we'll work with you to design the best risk management plan for your community.

Information & Other Services

As a full-service joint action agency, IMGA provides those value-added services that investor-owned gas suppliers just can't match.

Whether your needs are in training and information, assistance with rate setting, customized energy conservation materials or advocacy, give us a call – we can help!

If we're not your current gas supplier, we can help provide peace of mind through our IMGA Bill Check Program, which audits your bills to guard against costly mistakes. Best of all, there is no up-front cost for this program. You pay IMGA only if we find an error that results in a refund. Call us today for details!

And because IMGA is prohibited by law from making a profit, you can be sure that the money we save will come right back to your community!
